

## 244L COMPACT WHEEL LOADER

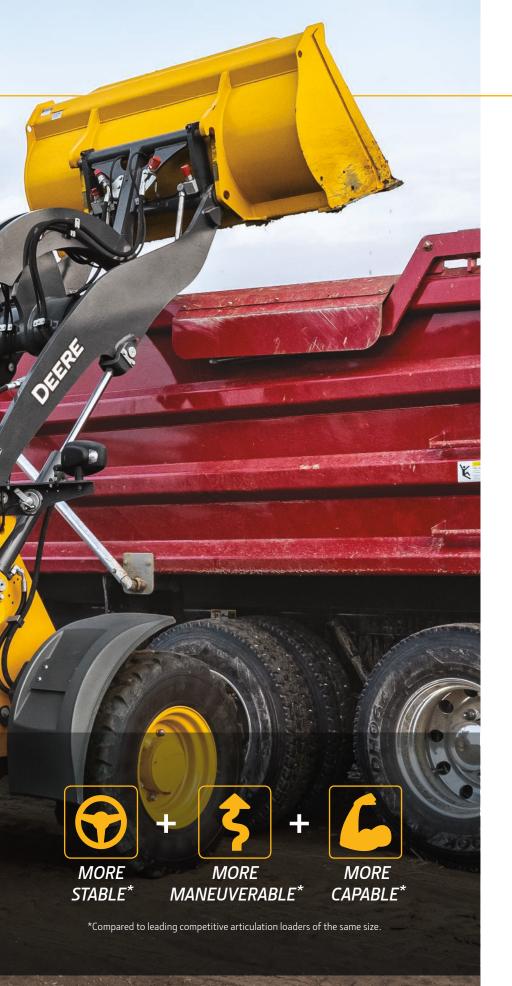

# **RUN SMALL, DREAM BIG**

To

2

244

Your workday is usually long, your tasks can take you into tight places, and your budget can be just as limited. That's why you need smaller do-it-all equipment that combines head-turning maneuverability, sure-footed stability, and cost-effective capability with productive power, responsive travel speed, and ease of serviceability. Meet the 244L Compact Wheel Loader, designed to include a wide range of reliable standard features and proven options that help this highly adaptable, multipurpose machine deliver the big results that will have you imagining what it can accomplish for your operation.

# FEATURES

#### Turn things around

Industry-exclusive Articulation Plus<sup>™</sup> steering system combines 30 degrees of articulation with 10 additional degrees of rear-wheel steer. Reduced articulation angle design delivers tighter turns that are more stable, especially with large loads, than comparatively sized loaders without Articulation Plus.

#### On the level

Loader arm and coupler design improves the lifting path to near parallel — for better load-carrying capability than previous models. This keeps the load more level from ground to truck-bed height and helps the operator focus on the task instead of on making manual adjustments.

#### Fast getaway

With a standard top speed of over 23 mph, the 244L can make some pretty quick moves on and between jobsites.

#### Smooth moves

Load-sensing AutoShift powertrain technology eliminates productivity-interrupting manual shifts between gear ranges while providing smooth direction changes.

#### **Control and command**

Low-effort joystick controls boom and bucket, F-N-R, and differential lock. Standard mini-joystick controls auxiliary hydraulic functions including high flow. Adjustableheight monitor lets operators keep close watch on vital machine functions. Expansive floor-to-ceiling tinted glass provides a commanding view of the work at hand and around the machine.

#### Lighten up

In-cab lighting activates when the door is opened to illuminate machine entrances and exits. Optional LED front and rear work lights brilliantly brighten early morning or after-daylight tasks.

#### Quick-change artist

Equip your 244L with an ISO coupler to quickly and easily go from bucket to forks, for maximum lift capacity. Opt for the available John Deere quick-coupler to utilize a wide array of skid-steer-compatible attachments. High-flow electrohydraulic-controlled auxiliary hydraulics are also available.

#### It's a lock

Optional throttle lock and creep control let operators set a slow ground speed while maintaining full engine power to an attachment. It's perfect for work with snow blowers, cold planers, or material/manure scrapers.

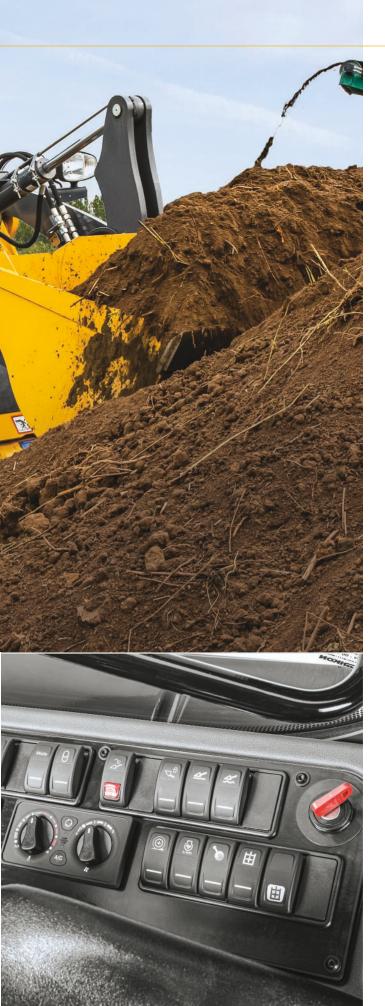

#### Get a grip

Manual low-speed 100-percent differential lock delivers the ground-gripping tractive effort needed to dive deep into the pile and help heap the bucket. Rimpull control manages power to the wheels, allowing the operator to select the optimal setting to reduce tire and driveline wear.

#### Keep your cool

Redesigned engine compartment and cooling package improve airflow and reduce the amount of debris entering the system compared to previous models. Access to all daily service checks and cooler cores is from ground level.

## 244L COMPACT WHEEL LOADER

OPTIONAL LED FRONT
 & REAR WORK LIGHTS
 ENHANCE VISIBILITY

#### Remote diagnostics and support

To maximize uptime and lower costs, JDLink<sup>™</sup> connectivity provides machine location, utilization data, and alerts to help you maximize productivity and efficiency. JDLink also enables John Deere Connected Support<sup>™</sup>. Dealers use Expert Alerts based on data from thousands of connected machines to proactively address conditions that may otherwise likely lead to downtime. Your dealer can also monitor machine health and leverage remote diagnostics and programming capability to further diagnose problems and even update machine software without a timeconsuming trip to the jobsite.\*

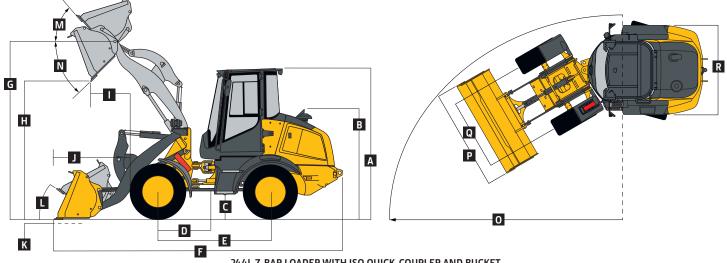

\*Availability varies by region. Options not available in every country.

# **244L** WHEEL LOADER SPECIFICATIONS

Engine	244L		
Manufacturer and Model	Yanmar 4TNV98CT	Gross Rated Power at 2,400 rpm	54 kW (73 hp)
Non-Road Emission Standard	EPA Final Tier 4 (FT4)	(ISO 14396)	54 (00 (15 (15)

# Additional equipment

#### 244L Engine

- Antifreeze, -37 deg. C (-34 deg. F)
- Coolant recovery tank
- Fan safety guard
- Fan, suction type, hydraulically driven, proportional speed
- Environmentally friendly engine oil drain
- Spin-on engine oil and fuel filter
- Engine oil cooler
- Quick-release fuel filter and water separator
- Under-hood dual-element air cleaner with restriction indicator with dustevacuator valve
- Prescreened air intake
- Automatic glow plugs for cold start
- ▲ Engine coolant heater, 110 volts

#### Electrical

- Starter switch with electric fuel cutoff
- 12-volt system
- Electrical load center with blade-type fuses behind operator's seat
- Standard 925-CCA battery
- Master electrical disconnect switch
- Alternator, 12 volts, 80 amps
- Horn (conforms to SAE J994 / J1446)
   Lights (conform to SAE 99): Driving / Front working (2) / Turn signals / Flashers / Stop / Taillights
- Worklights, rear (2)
- Reverse warning alarm (conforms to SAE J994 / J1446)
- Multifunction monitor with audible and visual warnings: Low engine oil pressure, engine coolant temperature, hydraulic oil temperature warning light, and parking brake indicator / Gauge and indicator: Engine coolant temperature gauge, fuel level gauge, speedometer, clock, and hour meter
- Indicator lights: Engine air filter / Parking brake actuated / Forward/reverse travel / lst- or 2nd-speed range / Turn signal and hazard lights / High-beam driving lights indicator / Battery voltage
- Pre-wired for roof beacon
   Powertrain/Brakes
- Smooth AutoShift technology up to 38 km/h (23 mph)

Key: ● Standard ▲ Optional or special

#### 244L Powertrain/Brakes (continued)

- Hydrostatic (HST) transmission: Electric shift control / Single-lever joystick
   F-N-R / HST oil cooler / Inching pedal / 2 speeds forward and reverse / Infinitely variable speed control
- Rimpull control
- Service brakes, hydraulically actuated, self-adjusting internal wet-disc brake and driveline drum brake
- Parking brake, spring applied, hydraulically released, switch operated
- Conventional-type rear differentials, 100% locking front differential
   Hydraulic System
- Hydraulic fan for demand-based cooling
- Hydraulic system oil cooler
- Automatic bucket return-to-dig control
- Boom float detent
- Reservoir sight gauge for hydraulic/ HST oil
- Fine-micron hydraulic filters, vertical mounting
- Hydraulic function lockout
- 3-function hydraulic valve with pilot joystick control including auxiliary electrohydraulic (EH) proportional control for 3rd function
- ▲ 109-L/m (28 gpm) high-flow option
- Quick-coupler diagnostic ports: Priority pressure / Hydraulic pump pressure / Control valve pressure / HST pressure
   Operator's Station
- Cab (conforms to SAE J1040, SAE J231, ISO 3471, and ISO 3449): ROPS/FOPS / Heater/defroster / Rubber-plane isolation mounted for noise/vibration reduction / Intermittent front and rear windshield wipers and washers / Tinted safety glass / Adjustable sun visor / Mid-back cloth seat with mechanical suspension / 51-mm (2 in.) retractable seat belt / Full swingout left and right doors with sliding window in left door
- Premium air-ride high-back heated seat with headrest and dual lumbar control
- Radio-ready cab, fused 12-volt radio electrical lead and speakers, and power port
- ▲ AM/FM/Weather-Band (WB) radio

See your John Deere dealer for further information.

_	
244L	Operator's Station (continued)
•	Air conditioning
	Storage compartment for operator's
	manual and other items located under
	operator seat and 2 options left of
	operator seat
•	Rubber floor mat
	Dual tilt and telescoping steering column
•	Rearview mirrors, outside (2) and inside
	(1) (conform to SAE J985) Handholds and steps, ergonomically
•	located and slip resistant (conform to
	SAE J185)
	76-mm (3 in.) retractable seat belt
	Loader Linkage
•	Z-Bar loader linkage provides high bucket
•	breakout
	Loader boom service locking bar
•	(conforms to SAE J38)
	Buckets and Attachments
	Full line of buckets with bolt-on cutting
	edges
	ISO-style quick-coupler
	Quik-Tatch <sup>™</sup> coupler
	Pallet forks
	Full line of construction utility forks, pallet
	forks, and other John Deere attachments*
	Tires
•	365/70R18 Mitas EM-01
	400/70R20 Michelin Bibload
	400/70R20 Michelin XMCL
	405/70R18 Firestone Duraforce
	Other
	LED worklights (spot or flood)
	Hydraulic reversing fan
	Front window guard
	Fenders, front and rear
	Articulation locking bar (conforms to
	SAE J276)
•	Vandal protection, includes lockable
	engine enclosure and fuel fill Cast rear counterweight
	Drawbar, with locking pin
	Lift eyes
	Tie-downs
	Fire extinguisher
	Material-weighing system <sup>†</sup>
	Ride control

Net engine power is with standard equipment including air cleaner, exhaust system, alternator, and cooling fan, at standard conditions per SAE J1349 and DIN 70 020, using No. 2-D fuel at 35 API gravity. No derating is required up to 1500-m (5,000 ft.) altitude. Gross power is without cooling fan. Specifications and design subject to change without notice. Wherever applicable, specifications are in accordance with SAE standards. Except where otherwise noted, these specifications are based on a unit with all standard equipment, ROPS cab, 365/70R18 tires, full fuel tank, air conditioning off, and 79-kg (175 lb.) operator.
